

ABOUT THE STATE

Happenings of Interest from Different Sections.

There are 240 influenza victims in St. Joseph's orphanage in Burlington.

The 31st battalion, United States Guards, left Fort Ethan Allen last night and only about 250 men will be left there, where as many as 3,000 men have been stationed at one time since the beginning of the war.

Six members of the telephone force in Morrisville are ill with the influenza and former operators are being summoned to assist during the shortage. Only one girl of the regular force has been working for the past few days.

Fifteen new cases of influenza were reported in Burlington Saturday and there is no cause for alarm. There were 10 deaths there Friday and Saturday.

The report of Miss Georgie Devine, the supervisor of school gardens in Burlington, shows that in the past year the school children in that city raised 1,919 bushels of potatoes, more than 10 1/2 bushels of squash, 29 1/2 bushels of beans, estimated in value at between \$3,500 and \$4,000.

James E. Tracy, the Burlington man who was to leave last night for New York and shortly after was to go over on the Y. M. C. A. work, and for whom a farewell party was given last week, received word a few hours before he was to start from Burlington that a lot of men released from military service in France are being used there in Y. M. C. A. work, and that no more men will be sent for that purpose from the United States for the present.

JOB SERVICE MEN

People of Vermont Are Urged to Co-operate in Assisting Them.

All members of the national council of defense living in Vermont are asked to put forth their individual efforts to see that the boys who are returning from the war, whether from the army or navy, are getting an early opportunity to obtain employment. The organization depends upon the officers in the different communities to help in this work just as much as they have in the efforts they have made towards advancing the war. All of the organizations that have reaped benefit from the allied war drive for funds have agreed to help in this work and to assist in carrying out the program of the national council of defense.

Persons knowing of employment are urged to give the information to the representative of some of these organizations or to the community labor boards so that the soldiers and sailors may be able to get back into civil life as quickly as possible and without loss of money or time.

Soldiers and sailors returning from the navy or camps should feel at liberty to ask the community labor boards and others to help them in securing employment. There is not a surplus of labor as some seem to think and their preference will probably be given to the men in uniform, jobs will be filled promptly.

FLOCKING TO PARIS.

Attaches of the Peace Delegations Coming by Every Train.

Paris, Sunday, Dec. 8.—Every train arriving at Paris these days brings in large numbers of officials attached to the various delegations to the peace conference. All the larger allied nations are continuously sending parts of their working personnel as by the time the delegates gather in Paris, the number of officials of all nationalities will number between 3,000 and 5,000. Each one will have some special work to do. Many of them already are busy.

The French delegates will have all their assistants near at hand, for the large staffs of the admiralty and war and foreign ministries will be constantly available. The United States office force will be large. Great Britain will have a large number of experts and assistants in Paris, and, in addition, staffs in the London governmental offices will be available for work which is not particularly urgent. Moreover, there undoubtedly will be in Paris representatives of Great Britain's dominions and colonies, with their respective staffs. Great Britain also will have in Paris a large number of various sorts, including men who have made a life study of such subjects as the navy, colonies, the far east and the near east.

The United States, because of its remoteness, will be obliged to have probably the largest and most complete staff, and for this reason the American authorities have been compelled to take over larger accommodations than any other delegation. Italy also will have a considerable working force here, but the delegates as in the case of Great Britain, will be able to count on much of their work being done in their own country.

Each European nation's delegates will have at their disposal their own private telegraph and telephone wires with which they may communicate with their respective governments. So many hotels have been taken over by the peace delegates and the remainder of the hostilities are so overcrowded that it is impossible for soldiers to find accommodations in the city.

A large number of the officials of the leading powers are receiving many representatives of small nationalities or groups of nationalities who have interests which they intend to bring before the conference. Some of these represent governments which have not even been recognized and in a few cases there are two groups of representatives of the same nationality, each claiming to represent the majority party and anxious to put forward its claims and statements.

Carter Glass.

The new secretary of the treasury brings to that office measurably good equipment. He had been identified in Congress with the currency reform cause long before it found realization in the federal reserve act. He has served on the banking and currency committee, and was at the time of his appointment its chairman, and while not a great man—at least the country does not yet know him as such—his record is good. He comes from the thriving city of Lynchburg in the southwestern corner of the Old Dominion. He is 60 years old and an editor.—Boston Herald.

If You Believe

in the good judgment of your country, you must necessarily believe in the vital need of life insurance, because your country endorses it. Call for information in detail. National Life Ins. Co., of Vt. (Mutual), S. S. Ballard, general agent, Rutland block, Montpelier, Vt.

SAYS COLD WEATHER BRINGS RETURN OF INFLUENZA

Public Must Be Careful to Avoid a Second Epidemic—Easier to Prevent Than Cure—What to Do.

"Encouraging reports of the fewer cases of influenza in this vicinity should not allow us to relax our vigilance or to become careless in the belief that the danger is all over," says a well-known authority. With the coming of cold weather there is not to be a return of this frightful epidemic and its seriousness will depend on the extent of the precautions, taken by the public, to prevent infection.

When the air is full of influenza germs, you may be constantly breathing them into your nose and throat. But your danger may be avoided and you may make yourself practically immune to infection if you destroy the germs before it actually begins work in your blood.

During the recent serious epidemic, which hit Barre so hard, most successful results were obtained by merely through the simple breathing into the nose, throat and lungs of the medicated air of oil of Hyomei. Probably no better, safer or more sensible precaution against influenza, grippe, coughs, colds, bronchitis or catarrh of the nose and throat could be employed than to go now to the nearest drug store and get a complete Hyomei outfit, consisting of a bottle of the pure Oil of Hyomei and a little vial of the hard-rubber inhaler into which a few drops of the oil are poured.

Carry this inhaler with you during the day and each half hour or so put it in your mouth and draw deeply through it, inhaling the germicidal air into the passages of your nose, throat and lungs to destroy any germs that may have found their way there. This simple precaution may save you a serious illness and the loss of several weeks' work. It is pleasant to use and not at all expensive, as the inhaler will last a lifetime and further supplies of the Oil of Hyomei can be had at any drug store for a few cents.

Hundreds of people in this vicinity used Hyomei in this way during the recent crisis and avoided danger. They should not neglect it now, as the danger is just as real as ever. Red Cross Pharmacy.—Adv.

NATIVE OF VERMONT.

Dr. K. F. Smith, Alumnus of U. V. M., Held Many Important Positions.

Burlington, Dec. 10.—Dr. Kirby Flower Smith of the class of 1884, University of Vermont, and one of its most distinguished alumni, died suddenly at his home in Baltimore, Md., Friday night of heart disease. He had held the chair of Latin at the Johns Hopkins academy since 1889 and was director of the School of Classical Studies, American academy in Rome, from 1914 to 1915.

Dr. Smith died on the anniversary of his birthday, having been born Dec. 6, 1862, at Pawlet. He was the author of many classical books and was one of the contributing editors at the American Journal of Philology.

Persons knowing of employment are urged to give the information to the representative of some of these organizations or to the community labor boards so that the soldiers and sailors may be able to get back into civil life as quickly as possible and without loss of money or time.

INDIGESTION, GAS, UPSET STOMACH

Hurry! Just Eat One Tablet of Pape's Diapiesin for Instant Relief. No waiting! When meals don't fit and you belch gas, acid and undigested food. When you feel indigestion, pain, lumps of distress in stomach, heartburn or headache. Here is instant relief.

A Real Vermont Welcome. At some stage when Vermont's soldier boys have all returned, there ought to be a real Vermont welcome for them. The probable nature of their homecoming, here and there a small contingent of individuals from some regiment, machine gun company, ammunition train or from the navy, marine corps or other branches of the service, falling out of their organization and making their way back unheralded, will prevent any general reception as they arrive. It should be saved up for a special occasion when they can be assembled under proper auspices. Doubtless the veterans of this war will organize as those of the Civil war did, with state units. The initial gathering would be a grand time for showing them public honor.—Randolph Herald and News.

STRENGTHENS KIDNEYS—PURIFIES BLOOD

You can't expect weak kidneys to keep up under the terrific strain of nature's effort to filter the acids and poisons out of the system unless they are given a little help. Don't allow your kidneys, the most overworked organ of your body, to become diseased. A little attention now will prevent it. Don't try to cheat nature. It can't be done. As soon as you commence to have backache, feel nervous, tired or worn out without cause, GET RUSHY. These are usually warnings that your kidneys are not working properly and throwing off the poisons as they should.

Do not delay a minute. Go after the cause of your ailments or you may find yourself in the grip of a neuritic disease. GOLD MEDAL Haarlem Oil Capsules will give almost immediate relief from kidney troubles, which may be the unperceived cause of ill health. GOLD MEDAL Haarlem Oil Capsules will do the work. They are the pure, original Haarlem Oil capsules imported direct from the inventor in Haarlem, Holland. Ask your druggist for GOLD MEDAL and expect no substitutes. Look for the name GOLD MEDAL on every box. Three sizes, sealed packages. Money refunded if they do not help you.—Adv.

Storage Batteries Recharged

Dry or Wet Storage for the winter. We also have room for a few more cars for winter storage. Phone 403-M and your battery or car will be called for.

C. F. H. Jones 69 South Main St.

GRANITE IMPORTS FELL OFF 53 PER CENT

Dressed Granite Fell Off Even More Than That—in March, 1918, Embargo Was Placed on Stone.

The value of the granite imported in the United States decreased 53 per cent in 1917, this decrease following a decrease of 47 per cent in 1916. The value of dressed granite decreased 62 per cent. The value of rough granite increased slightly, but the quantity decreased 20 per cent.

The value of stone other than marble and granite imported in 1917 decreased nearly 60 per cent. Dressed stone showed a larger value in 1917 than in either 1915 or 1916, but rough building and monumental stone decreased both in quantity (43 per cent), and in value (39 per cent), and other rough stone decreased in value 89 per cent. The general decrease in the value of stone imported was due mainly to lack of shipping facilities. In March, 1918, an embargo was placed on the imports of monumental and building stone, but it is stated that some stone shipped from the allied countries has been admitted since then on condition that the time necessary for its loading and unloading should not appreciably delay the delivery of material essential to the prosecution of the war.

ORANGE COUNTY FARM BUREAU

A new farmers' club was organized in Tunbridge No. 3 school district recently. This is the thirtieth club to be formed. These clubs are trying to help the people to solve their farm and home problems, to meet the needs of their community and to bring them in closer touch with the farm bureau, the Vermont extension service and the United States department of agriculture. Have you a club in your neighborhood?

Wednesday night a meeting was held in South Strafford, but as there was only a small number present another meeting will be held. This will be held probably on the 18th, the day on which the county agent will be at Strafford Creamery. The men will meet at the creamery in the afternoon. A meat canning demonstration will be given for the ladies at this same time, the place to be announced later. Further notice of this meeting will be sent out. Now that the war demands are lessening, there is no reason why these meetings should not be largely attended.

The last three days of this week will be spent at the annual county agent conference. Representatives from Washington, commissioners, to receive, examine and give a good opportunity to find out what is being done in other parts of the state and how Orange county ranks with the other counties. Will she be a leader? It all depends on you and your neighbors. If she isn't at the top, let's put her there this coming year.

Recipe for week: Fat Cracklings as Shortening—Put pieces of hot cracklings through the food chopper, salt about the same as butter, and pack in fruit jars. Use in puddings, quick breads and spice cakes and as a seasoning for vegetables. Use four times as many cracklings as lard when substituting.

A UTOPIAN DREAM.

To Think That There Will Be No Wars and Armament Will Be Unnecessary.

Cambridge, England, Monday, Dec. 9.—The establishment of a league of nations will not result in the development of a world in which no wars will occur, armaments will be unnecessary and reason supplant violence, in the opinion of Sir Eric Geddes, first lord of the admiralty, expressed in an address here tonight. Under the most favorable conditions, he declared, it was to be expected that a police force would be required.

Get Rid of That Persistent Cough

Stop that weakening, persistent cough or cold, threatening throat or lung affections, with Eckman's Alternative, the tonic and builder of 20 years' successful use. 80c and \$1.50 bottles from druggists, or free from Eckman Laboratory, Philadelphia.

Columbia Dry Cell advertisement with image of a battery and text: 'Columbia Dry Cell', 'We Recommend Them', 'Any article that comes from our store you may depend upon absolutely. This is "The Store of the Unwritten Guarantee"—the fact that you buy an article here is in itself a guarantee that that article is everything we represent it to be.'

A. M. Flanders in taxidermy is the result of years of experience. My natural, life-like mounting reminds you of the way the specimens looked when you drew your gun to shoot.

EXPRESSION advertisement for a taxidermist: 'A. D. PHILLIPS, TAXIDERMIST, Orleans, Vermont. Telephone 29-11. OFFICE HOURS: 9 to 12:15, 5 to 7 and 7 to 8. Graduate of the Baltimore College of Dental Surgery, the oldest and for many years the only dental college in the world.'

IS THIS YOUR EXPERIENCE?

Are you bothered with too frequent action of the kidneys? Are the secretions highly colored—do they contain sediment—burn and scald in voiding? These are all signs of kidney sickness and should not be neglected. Barre people recommend Doan's Kidney Pills. If your back aches and your kidneys are weak, you will find no better recommended remedy.

C. H. Simonds, carpenter, 6 Beckley court, Barre, says: "My kidneys have been so much bothered by kidney trouble that I had sharp, shooting pains across my back that interfered with my work. I used Doan's Kidney Pills, and the benefit they gave me has remained permanent."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Simonds had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv.

On the sea, he added, the British navy had performed that function faithfully and impartially, preventing the free nations from being crushed by Germany. He regarded it as inconceivable that the supremacy of the British navy would ever be surrendered.

The first lord expressed the belief that Germany should be made to refund the full cost of the war and pay for all the damage she had done by sea and land, to the uttermost farthing.

Only One Corn Peeler, "Gets-It"

Stop Corn Pains; See Corn Peel Off. It is just when a corn hurts that you want to feel surest about getting rid of it. Why take chances of keeping the corn and having the pain roar worse? You'll say "Gets-It" anyhow, sooner or later; might as well use it

The Only Peesh-Off Way Is "Gets-It"

sooner. Then you are absolutely sure that the corn will loosen from your foot so that you can peel the whole thing off painlessly with your fingers, in one complete piece—just like peeling a banana. It takes a second or two to apply "Gets-It." There's no fussing or putting. Corn-pains will vanish—that'll keep you sweet while the peeling is done. Nothing new for corns has been discovered since "Gets-It" was born. Follow the judgment of the millions who use "Gets-It" and be sure to be corn and pain free. You'll say it's magic.

"Gets-It," the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. Write for literature to J. C. Co., Chicago, Ill. Sold in Barre and recommended as the world's best corn remedy by Cummings & Lewis.—Adv.

ESTATE OF MADEIRA CHINI, COMMONLY CALLED MADEIRA CHINI

State of Vermont, District of Washington, ss: I, the undersigned, clerk for the district aforesaid, to all persons interested in the estate of Madeira Chini, commonly called Madeira Chini, late of the city of Barre, in said district, do hereby give notice that on the 23rd day of January next for examining and allowing the account of the administrator of said estate of said estate and for a decree of the residue of said estate to the lawful claimants of said estate, in accordance with the provisions of the act assigned, in the Barre Daily Times, a newspaper published at the city of Barre, in said district.
