

The Best Cough Syrup Is Home-made

Here's an easy way to save \$2, and get the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home. Into a pint bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup to fill up the pint. Or, if desired, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, never spoils, and gives you a full pint of better cough remedy than you could buy ready-made for three times its cost. It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, breaks the membranes and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

It was brought in by Mrs. Hale's three little great-granddaughters. Mrs. Hale was the recipient of many handsome flowers. Presiding at the tea table were Mrs. Hale and Mrs. Fanny Bailey." Mrs. Hale fully appreciates the many birthday cards and letters from her friends in Newbury and elsewhere, and although she may be unable to reply to them all, she will hold them as mementoes of those friends who will ever be dear to her.

CHILDREN HATE PILLS, CALOMEL AND CASTOR OIL

If Cross, Feverish, Constipated, Give "California Syrup of Figs"

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given to-day saves a sick child to-morrow.

Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt—Adv.
